CHRISTY HEAD OF "ALLIANCE" POINTING OUT THE FIRE RISK

Since assuming his duties as chairman of the republican county central committee, Col. James H. Christy has succeeded him in the responsibilities of the latter position, and will unquestionably make a vigorous and efficient officer.

Mr. Christy is a long-time resident of the city, is well known and is an enthusiastic Hughes man. He will give his exclusive attention to lining up the Hughes vote in Phoenix and to have the whole-hearted co-operation of all good republicans, and the special help of a great many of the business men and independent voters who realize that the cause needs Mr. Hughes at the helm of state.

Insurance Men Render Valuable Aid in Waking Up Otherwise Careful Business Men to the Need of Cleaning Up Premises

A good deal of favorable comment is being made on the educational campaign being waged by local insurance writers among business men on the matter of fire prevention. The campaign is being conducted in connection with the local observance of National Fire Prevention Day, which is next Monday, and it is attracting wide attention.

The value of the educational feature of the work lies in its convincingness among the owners of business blocks. It is said there is no class of property owners more careful to keep fire risks low, as the proprietors of store and office buildings. Their old carelessness about back yards and courts, however, is the point of attack by the insurance men. They point out the danger of accumulations of packing boxes, sometimes filled with loose clothing and paper, in the rear of clothing stores, for instance. A man, ordinarily very cautious about having fireproof buildings, will often permit himself to be influenced by the accumulation of shreds and court yards, to the danger of whole blocks.

The Fire Prevention Association is co-operating with the city clean up squads under the leadership of Arthur Halm, to promote the cleaning up of all vacant lots and alley ways on Monday, October 9. The work is valuable not only intrinsically, but because it is preparatory for the state fair, when thousands of visitors will see the city and give it a critical once over.

ROTARY CLUB TALKS ABOUT STATE FAIR

The entire session of the Rotary club held at the Rose Tree yesterday noon was given over to the discussion of the coming state fair.

In a talk, H. M. Fennemore, explained what the fair meant to the state. He pointed out the necessity of a change in the legislation covering it, and suggested that the "bridge plan" should be applied to its finances, that is, appropriate of a definite allowance in the future. Dr. J. C. Norton advocated attention to the growth of the fair and the necessity for more buildings to accommodate the exhibits to the land-scaping, gardening and other improvements going on this year.

Dr. John Dennett, Jr. spoke on the increase in registered dairy cattle as a direct result of the state fair, and predicted great things from this branch in the future.

BEAUTIES IN MOTOR CAR ADD TO PARADE

One of the most attractive exhibits in the parade that raised the curtain on the highly successful fashion show Wednesday night, was the automobile beauty parade.

The driver had as his guests a bevy of pretty young women, who, also flanked by the parade, were the highlight of the parade by the Rabbit-Polton company. The car was a Haynes tourer, one of the new classy models, shiny as it came from the freight car, but its beauty enhanced by the addition of scores of dozens of carnations and yards of smilax wreaths.

MANY WITNESSES IN GRAND JURY PROBE

While the grand jury has not made any return, that it is having a busy session is evident from the number of witnesses that have been subpoenaed to appear before the body. The corridor of the court house contains rows of benches that for days have not held a vacant seat.

The investigations have been secretly conducted as required by law and not a hint as to the deliberations has been heard. The jurors will be in session for several more days. When the jury was called, it was stated that the session would not last more than a day, but Foreman Green stated yesterday that more work was in sight now than when they started their investigations.

He wishes it particularly understood that anyone having any matter to present, should do so at once.
